- Provides a strong water and dirt-repellent surface
- $\,-\,$  Enhances the natural colour and grain of the wood
- Contains UV filter and protects the wood from deterioration
- Thick viscosity, no dripping easy to use
- Provides an open-porred, breathable surface

WOCA Exterior Wood Oil is to be used outdoors for basic treatment and maintenance of new and previously oiled wood surfaces such as decks, garden furniture, cladding etc. The special water-based composition of oil components ensures that the product is water-dilutable and friendly to the environment. The oil enhances the natural colour and grain of wood. Exterior Wood Oil Natural is recommended to enhance the natural colour structure of the wood. For rejuvenating of old wood surfaces, the pigmented oils are ideal as they recreate the original colour of the wood. A change of colour of the deck is also possible by applying e.g. the grey, anthracite or black oil.

#### **Exterior Wood Shield**

**Long-lasting** protection of untreated wood.

- Gives the wood a water and dirt-resistant surface
- Extends the lifetime of the wood
- Increases the resistance of wood to wind and weather
- Also suitable for absorbent outdoor surfaces such as tiles, concrete and stone

If left untreated, outdoor wood takes on a beautiful grey patina. You can now maintain this look, while at the same time giving the wood long-lasting protection and extend its lifetime. The solution is WOCA Exterior Wood Shield, which is ideal for the treatment of untreated outdoor wooden surfaces, such as wooden garden furniture and patios. Exterior Wood Shield produces a water- and grime-resistant surface, while retaining the patina of the wood, as it does not add colour to it.
